Instructions for using Intraday Trading Tips

The stocks for intraday trading are carefully selected based on technical analysis and target and stop loss values arrived .These recommendations are only for those who continuously monitor the price movements and quickly make decision.

**Only disciplined traders who are willing to book loss also should use these recommendations. Others can practice paper trades and gain confidence before they become actual traders.**

When the market is Bullish the BUY recommendations will work and in the Bearish market SELL recommendations will work for profitable intraday trading. When the market is highly volatile both Buy and Sell intra day trading recommendations will work.
